

**BEAR WAS VICTORIOUS.**

**Fought Three Young Bulls and Carried Away One of Them.**  
(From the Japan Advertiser.)

A large bear made its appearance in the pasture of Masahoro, Soyo, Kitama province, and attacked a three-year-old bull, which was munching grass. The pair fought hard to the death—of the bull.

Two other bulls which were separately roaming about the pasture were attracted by the struggle and as soon as their mate was killed, sprang upon the bear with their united strength.

A desperate fight ensued for some time, but, unfortunately, it resulted in the fall of the two revenging companions, after having sustained severe wounds from the paws of the wild animal. The triumphant monster then took the first bull in his grip and disappeared into the valley, leaving his tell-tale footprints in the soft earth.

**Served Her Right.**

A doctor was one day stopped in the street by one of his women patients whose malady was purely imaginary. The doctor, who was known for his intolerance of and non-sympathy with such invalids, after listening somewhat impatiently to the woman's detailed account of all her feelings and symptoms, told her to shut her eyes and put out her tongue. She promptly did so. On opening her eyes in a few seconds the doctor was nowhere to be seen, and the woman awoke to the fact that he had left her standing by herself in a busy thoroughfare with her eyes shut and her tongue hanging out.—Chicago News.

**Lucius Todd Wins Big Stakes.**

Lucius Todd, a trotter well-known on the Pee Dee Circuit, has made good at Oil City, Pa. Lucius is still owned by Mr. J. Stackhouse and was entered in the Pennsylvania circuit early in the season. He did not show up well until a few days ago when at the Oil City races he simply "cleaned up the field". It is understood that his winnings were very large. His time was 2.11. Lucius did not show up well on this circuit. He seemed to be out of order in some way and was easily distanced by Alfonso and Albuta.

**SNAKE LEAPS 1,400 FEET.**

Two Wysox men had a thrilling experience on Table Rock Mountain Monday afternoon, one which they will not care to repeat.

As they were walking on the mountain they came upon a large copperhead snake which was enjoying a sun bath 100 yards from the rock which gives the mountain its name. The men looked around for stones, but none that they could handle to good effect could be found, nor was there a good club at hand.

Taking sticks of good length they attacked the snake, which showed fight and struck at both men. Failing to land and not liking the lashing of the sticks his snakeship started for the edge of the mountain overlooking the river which flows at the base some 1,400 feet below.

Reaching the edge of the table rock which hangs out from the mountainside a considerable distance, the snake arranged itself in a peculiar shape, and then with a hiss half jumped, half squirmed out into the air. The men rushed upon the shelving rock and peered over and watched the fearful descent of the snake, expecting to see it strike the trees or protruding rocks down the mountainside but it missed all these obstructions. It was not thought possible the snake would clear the Lehigh tracks but as the distance was covered the snake seemed to straighten out, and, as the men vow, crawled through the air and succeeded in landing in deep water with hardly a splash.

While they were watching to see if the snake came to the surface one of the men became dizzy from peering over the edge of the rock and would have followed the snake's awful example had not his companion caught him just in time.

Some idea of the distance travelled by the copperhead can be had when it is known that but few boys or men can throw a stone so that it will strike in the river as the snake did.—Towanda Review.
